Soft Skills: Team Leadership, Strategic Planning, Problem Solving, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Project Manager & UI Developer — Water Logic Australia

[April 2021 – Sep 2022]

- Led end-to-end delivery of an e-commerce platform for water dispensers and accessories, built on React.js with GraphQL API and Shopify Checkout integration
- Managed project timelines, client communication, and cross-team coordination
- Delivered pixel-perfect UI components ensuring seamless UX across desktop and mobile

Project Manager — Safety Team Application

[Sep 2022 – Dec 2022]

- Managed development of a mobile app, web application, and super admin panel for a safety-focused client
- Coordinated multiple development tracks simultaneously while maintaining sprint cadence and risk register
- Facilitated stakeholder reviews and ensured on-time delivery across all three platforms

Project Manager & AI Full-Stack Developer — Invoxa

[Nov 2025 – Feb 2026]

- Led development and management of an AI-powered full-stack application from architecture through deployment
- Integrated AI features into frontend and backend workflows, improving automation and user experience
- Oversaw technical team coordination, sprint planning, and delivery milestones

Project Manager & AI Frontend Developer — Love Invoicing

[Jan 2026 – Present]

- Managed full product lifecycle for a SaaS invoicing platform built for tradespeople and small businesses, including requirements gathering, sprint planning, QA, and release management
- Developed AI-powered frontend features that automated invoice generation and tax categorization

Project Lead — n8n Automation Projects

[Jan 2026 – Present]

- Built an n8n workflow (Risk Analysis Automation) that processes and analyzes data from Google Sheets to produce risk reports
- Designed and deployed an automated HR CV screening pipeline using n8n to parse, rank, and shortlist candidates
- Reduced manual HR processing time by 70% through intelligent automation workflows

Product Designer & Product Manager — *Smart Home IoT*

[Feb 2023 – June 2023]

- Led product design and management for a Smart Home IoT solution, covering device interfaces and companion mobile app
- Created user research frameworks, information architecture, and high-fidelity Figma prototypes
- Managed hardware-software integration milestones with engineering and hardware teams

Project Manager — *Odoo POS Implementation*

[July 2023 – March 2024]

- Managed implementation and customization of an Odoo Point of Sale system for a retail client
- Coordinated between the client, Odoo developers, and QA team to deliver on time and within budget
- Handled user training, change management, and post-launch support planning

Product Designer — *Al Hilal Football Academy*

[March 2024 – August 2024]

- Designed the complete digital product experience for the academy's platform
- Delivered brand-aligned UI/UX covering onboarding flows, player profiles, and training dashboards in Figma

Product Designer — *AV Diamonds*

[August 2022 – January 2023]

- Crafted a luxury e-commerce product design for a diamond jewelry brand
- Developed elegant, conversion-focused UI with high-fidelity prototypes for product showcase and checkout flows

Product Designer — *Rent Around*

[July 2024 – Dec 2024]

- Designed end-to-end UX for a rental marketplace platform covering property listing, search, booking, and payments
- Created user personas, journey maps, wireframes, and final Figma designs

Product Designer — *NexSaaS*

[September 2025 – Jan 2026]

- Designed a SaaS platform with a focus on clean data visualization, onboarding flows, and subscription management
- Delivered design system components, responsive layouts, and interactive prototypes in Figma
